HOBBIES

- Learning about technologies (Old and New)
- Automotive Technologies

PROFILE

Enthusiastic undergraduate student seeking a job as a programmer. Quick learner, team player, and eager to acquire expertise in varying fields of technological work. Well versed in Web Design, GIMP, and currently advancing my knowledge in .NET and SQL.

WORK EXPERIENCE

University Project - Embedded Systems Simulation

October, 2025 - Present

- Worked with microcontroller logic
- Developed a prototype software module
- Testing and documentation

University Project - Graph Data Structure Simulation

October, 2025 - November, 2025

- Created a graph, and the relations of the elements in it, in C++
- Utilized a plotting library to visualize the graph
- Testing for errors and documenting results

University Project - Todo App

April, 2026

- Utilized React for realization of the project
- Made a functional and well-stylized app
- Added Light/Dark mode to the UI
- Testing and documentation
