- C# and .NET
- Image Editors (GIMP)
- Microsoft Office
- Team Collaboration
- Problem Solving
- SQL and Databases

LANGUAGES

- English: 85%
- Bulgarian: 100%

HOBBIES

- Studying
- Sports and Exercising
- Automotive technologies

PROFILE

Enthusiastic and knowledge hungry undergraduate student seeking a job as either a programmer, especially in the automotive industry. Quick learner, team player, and eager to acquire expertise in varying fields of work. Well versed in Web Design, GIMP, and currently advancing my knowledge in .NET and SQL, ECUs, CAN Bus, and Volumetric Efficiency Maps. Done some minor mechanical and electrical work on my car too (Changed fluids, brakes, fixed a non-working electrical door lock, etc.).

WORK EXPERIENCE

University Project - Embedded Systems Simulation

October, 2025 - Present

01. Worked with microcontroller logic
02. Developed a prototype software module
03. Testing and documentation

University Project - Graph Data Structure Simulation

November, 2025 - October, 2025

01. Created a graph, and the relations of the elements in it, in C++
02. Utilized a plotting library to visualize the graph
03. Testing for errors and documenting results

EDUCATION

Bachelor in Communications and Computer Technologies

September, 2024 - (Education is still ongoing)

Technical University, Sofia

Secondary Education in Systems Programming

September, 2019 - May, 2024

Vocational High School for Woodworking and Construction "Tsar Ivan Asen II"
